

ENGINEERING LIMITED

KERRUSH SUCSESSES

THE COMPANY: Cooks Garden Centre have 5 sites in total

- 1 x garden centre
- 1 x nursery
- 3 x flower shops

THEIR PROBLEM: The waste from all sites ends up at the nursery, generating enough waste for 6 lifts from 15 yd skip per week.

OUR SOLUTION: An LSM Engineering WR350 baler was installed at the premises, and they are now baling cardboard, plastic and flower waste

SAVINGS: Since installing the baler, Cooks Garden Centre have reduced their skip lifts to only 2 per week, saving them almost £2,000 per annum.

SOME COMMENTS: *'The baler saves us time, gives us a much cleaner working environment, and most important to me as a business-man, it saves me money!!'*

(Paul Cook, Owner of Cooks Garden Centre)
