

VF50 AGRICULTURAL WASTE BALER

The mobile, tractor-mounted version of our unstoppable mill-size baler, the VF50 offers a reliable, economical solution to baling agricultural waste, which is now categorised as industrial waste. Available with a 5-tonne, 8-tonne or 16-tonne press, the VF50 operates on a single acting spool from a tractor or forklift and will bale all farm waste, plastic containers, cardboard and even tyres year after year.

Recommended for agricultural contractors, farming co-ops, machinery rings, groups of farmers, individual farmers, building contractors, market gardeners.

FEATURES

Easily mounts to tractor or forklift for mobile operation

Operates on a single acting spool from tractor or forklift

Includes road lights for safe transport and operation

Unique configuration of floating and fixed retention fingers helps optimise baling

Ideal bale size for euro pallets, with easily adjustable bale height

Simplified low-voltage user controls, integrated powered bale kicker, easy-tie system and heavy duty door clamp for easy and safe operation
